

WDC Exploration & Wells operates the newest and most powerful high-capacity direct push machine from Geoprobe®. The rigs are equipped with a durable undercarriage, hollow stem auger capabilities, and a rubber track wide-base platform.

The WDC Geoprobe® rigs are another example of total commitment to provide the newest and safest equipment available to the drilling industry.

Model 7730DT Features:

- Power to reach deeper probing depths
- 77 in. probe cylinder stroke allows use of 60 in. probe rods
- Two-speed probe cylinder cycles from bottom to top in less than 5 seconds
- Equipped with the powerful GH62 Hammer
- Heavy Duty Undercarriage has a wider track that carries more weight, adds more torque, reduces ground pressure and handles greater tool weight
- Ground speed up to 4.5 mph

GEOPROBE

- Wireless remote control
- Built-in rotary spindle for concrete drilling, augering, and anchoring
- Equipped with a hydraulic winch for handling augers and tripping dual tube sampling tools
- Powered by a four-cylinder, 75 Hp, liquid-cooled Kubota turbo diesel engine
- Hydraulic movement in all three axis allows easy probe alignment with tool string
- Auxiliary hydraulic ports provide power for remote equipment
- Compatible with Geoprobe® Tooling and Logging Equipment
- 50-gallon Water Transport System with 2,000 psi High Pressure Washer
- Hydraulic Liner Extruder
- Machine Vise & Mount
- Convenient sample preparation area
