

W

DC Exploration & Wells is pleased to announce the promotion of Joseph V. Spedale to President.

Joe received a Bachelor's of Science degree in Mechanical Engineering in 1978 and immediately joined the oil and gas deep hole directional drilling industry, working offshore and onshore drilling platforms throughout the Gulf of Mexico and Canada for over 8 years. Following the oil industry downturn in the mid 1980's, Joe relocated to Southern California where he eventually became Vice President of a major drilling company.

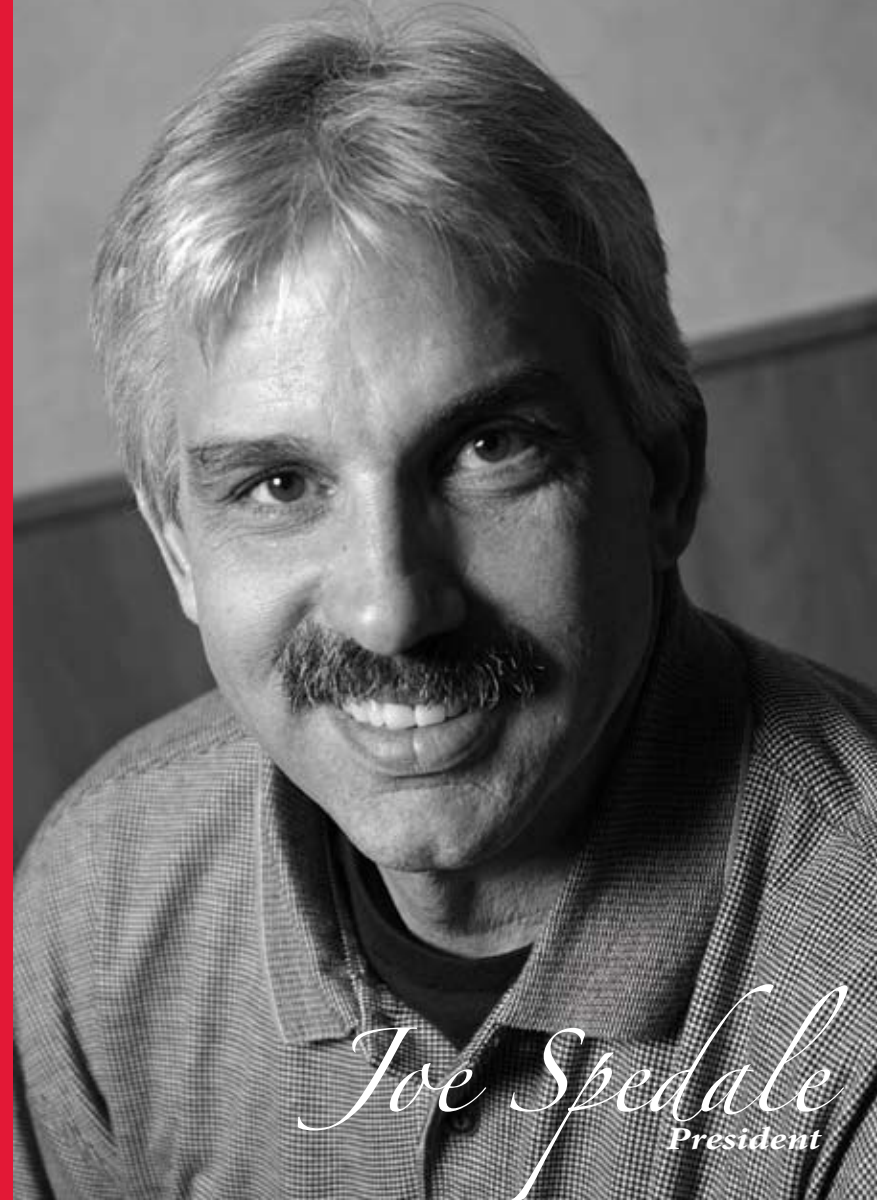

In 1995 Joe joined WDC, demonstrating exceptional professionalism, integrity and skill in multiple positions with WDC including Sales Manager, Southern California Regional Operations Manager and Vice President. Under Joe's leadership, our Southern California District became the region's premier drilling operation.

The position of President has been held by only three other men since 1949 including company founder Harold "Ben" Barrow (1949-1975), Jeffrey C. Barrow (1975-1995) and Jeffrey D. Morgan (1995-2006). As President of WDC, Joe Spedale is honored to uphold and expand upon our legacy of exceptional service, equipment and personnel.
